

# MUCH ADMIRED

28.3.74.

Lessons at Downs Secondary School, Compton, have for the past two weeks enjoyed a distinctly continental flavour. Over 20 young people from Moutiers - les - Mauxfaites, in the Vendee district of France, have been temporarily added to the school roll.

They are staying at Downs

pupils' homes for three weeks, and have improved their English by joining in all school lessons and activities. At the end of their visit, a similar party of Downs' pupils will be visiting Moutiers - les - Mauxfaites for a three-week educational trip.

The French children were

interested in the miniature farm at Downs School. Some of them here, together with some of their hostesses, are pictured admiring one of the school lambs. Left to right, they are Martine Coustilleres, Lynda Adlem, Nicola Blatchley, Veronique Mentha, Andrea Clegg Edwige Saluden, and Amanda Taylor.
